

5-15-99  
Docket # 98N-1038

I am among the 77% of consumers who oppose irradiation.

I demand prominent labeling, the use of the terms "irradiation" or "irradiated" and the use of the radura symbol.

Proposed alternative terms such as cold or electronic pasteurization would be misleading because irradiation destroys vitamins and causes changes in sensory and spoilage qualities that consumers don't expect.
